

RAHUL PAWAR

Frontend Developer

3+ years experience

About

Frontend Developer with expertise in building responsive, user-friendly, and visually appealing websites using WordPress, WooCommerce, HTML5, and CSS3. I have experience in creating business websites, landing pages, eCommerce stores, product pages, and customized website layouts.

I am also skilled in using Figma to understand and implement UI designs. With a WordPress Developer Certification, I focus on delivering clean, functional, and easy-to-manage websites that meet business requirements.
